

Welcome to the animal and pet gallery of Artisan Surfaces. Sue is a life-long advocate for the humane treatment of all animals and to that end, has partnered with [Catz Jazz](#), a local 501 (c)(3), feline rescue and rehabilitation group, to help support their cause.

For every Catz Jazz referral which results in a pet portrait or mural, Sue pledges to donate 10% of the project's earnings to help them provide medical care to abandoned, abused, and neglected animals in our own community.

With a gift of paints from her grandfather, Sue Hains began her painting career at the age of seven. Inspired by the surfaces and forms she observes in nature (she received her BA in Natural History from the University of Colorado), she creates illusions of stone, animals, and plant life which range from highly stylized geometric patterns to photo realism.
